- 2. A new training group was expected to arrive at the pilot school. The instruction personnel were belligerent in mood, and the Soviet pilots boasted that "they would soon show the Americans what they were capable of".
- 3. Soviet guard personnel said that the Deutsch-Wagram airfield was declared under alert in late June 1950. More beverages than before were served in the Soviet canteen.

* Comment. This is the first report on the existence of a pilot school in Deutsch-Wagram. The report does not indicate whether the trained personnel are flying or ground personnel. Deutsch-Wagram is occupied by units of the 3th Gds Bmr Div. If the information is correct, it is possible that bomber units are also stationed in Rumania.
